Screenshot of the team from their Google Meet meeting.

Decisions taken at the meeting.

- 1- **Methods of communication:** Communication between the team will be provided by e-mail, phone, WhatsApp group and Google Meet meetings.
- 2- **Communication response times:** Team members will stay in touch with each other at all hours of the day for the project.
- 3- **Meeting attendance:** The project consists of 5 parts. A meeting will be held one day before each deadline. If necessary, a meeting can be organized quickly outside of these meetings. The meeting is held at a time when all team members are available. Participation is mandatory.
- 4- **Running meetings:** The meetings will be held around 8 pm via Google Meet. The meetings will have a content in which we plan, follow how the project is progressing, determine what has been done and what needs to be done. Ersu KARPUSZ will receive the meeting notes.
- 5- **Meeting preparation:** Before the meeting, each team member will write down their ideas and share these notes with their teammates during the meeting. It will prepare a PPT presentation if deemed necessary. He/she will show what he/she has done until the meeting to his teammates via screen sharing.
- 6- **Version control:** In line with the decisions taken at the meetings, the project will progress to a new level every day. Team members will send short reports to each other via messages to the WhatsApp group every day. Apart from the project, no different topic will be discussed in the group.
- 7- **Work sharing:** Each member of the team will work together on all parts of the project.
  - **Damla GÖNÜLSÜZ:** She is the team member who is going to organize the meetings. She determines the meeting time and which platform the meeting is going to be on. When the meeting time approaches, she connects with team and brings them together. She manages the order of speaking during the meeting and prevents

tensions that may occur. Also, she is the person who is responsible for the back-end in the code part of the Project.

- **Ersu KARPUZ:** He is the team member who is taking the meeting notes that what was planned in the meeting and what we decided to do until next meeting. And he notes who did or did not do the tasks determined according to the previous meeting notes. Also he reports the key points discussed in the meeting. He is the person who is responsible for the middle layer in the code part of the Project.
  - **Ceren AKTAŞ:** She is the person who is going to direct the team in the code part of the Project. Since we are doing a Project in layered architecture, she checks whether or not the three layers of the Project are correct. She oversees the progress of the Project and assembles the Project. She is the person who is responsible for the database in the code part of the Project.
  - **Refiye Şehnaz YILDIRIM:** She is the person who prepares the reports of the project. She creates the reports by taking the meeting notes from Ersu KARPUZ, learning the final version of the code section from Ceren AKTAŞ and checking the meeting attendance and activity status from Damla GÖNÜLSÜZ. She is the team member who is going to stay in contact with the instructor. She is the person responsible for the front-end in the code part of the project.
- 8- **Submit assignments:** The team members will complete the work they need to do in the time specified at the meeting and send to Refiye Şehnaz YILDIRIM. After reviewing and discussing the sent document with other team members, it will be added to the project.
- 9- **Contingency planning:** If one of the team members does not come to the meetings, does not do and deliver the tasks that they need to do on time, does not communicate with the team, or states that they do not want to do anything, this team member is first warned by his teammates. If the team member continues to behave in the same way, the instructor is asked to remove this person from the team.
- 10- **Security:** Project files and documents will be archived at every stage of the project.
